

## **Lewis R. Roberts, M.B.,Ch.B., Ph.D.**

Assistant Professor of Medicine  
Director, Hepatobiliary Neoplasia Clinic  
Division of Gastroenterology and Hepatology  
Mayo Clinic  
Rochester, MN

### ***Research Interests***

Research in my laboratory is focused on the molecular pathogenesis of hepatocellular carcinoma. My current projects include the function of WW domain containing oxidoreductase, the FRA16D common fragile site gene, in liver carcinogenesis; cloning and characterization of genes at the sites of hepatitis B virus integration in hepatitis B virus-induced liver cancers; and modulation of heparin-binding growth factor signaling in hepatocellular carcinoma by hSulf1 sulfatase.
